DISPLAY IT FLEX

DISPLAY IT FIXED

## Display It: professional and orderly

The Display It presentation system gives you a professional and orderly way to display your announcements or documents.

The system's acrylic frames are easy to mount and adjust to the desired height. Thanks to the E-Clip for Display It, you can change the contents of the acrylic frames in seconds. The clip also makes it easy to connect the frames to one another, making both horizontal and vertical displays possible. This display system is ideal for estate agents and is often used as a 'face wall' for photos of staff displayed on the wall in hospitals and other institutions. Display It is available in Flex and Fixed mounting models. The Display It Flex version is used in combination with a hanging rail and stainless steel rods that are easy to reposition along the rail.
